DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 28-29, 36-38 are rejected under 35 U.S.C. 102(b) as being anticipated by WO99/54863.

WO99/54863 discloses a projection system comprising:

A buoyant body (1) having a first outer surface (4) wherein a projector (2) is arranged and a translucent screen is formed at an interior of a second surface portion opposite a
(Page 9 Lines 11-12)

As noted on page 5 Lines 16-21, the interior of the balloon may be made to block light except over the screen area, where it remains transparent. As noted on Page 9 Line24, the balloon may be formed in shapes other than spherical. Figure 3 shows the known usage of guy lines to secure the structure. WO99/54863 further discloses the use of a welding process as an appropriate method of integrating pieces. (Page7 Lines 3-6)

Claim Rejections - 35 USC § 103

3. Claims 31, 34-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO99/54863 in view of Walter.

Walter shows an inflatable structure formed of a cylinder with a screen portion on one side.

As regards Claims 31, 34-35 lacking any criticality to the invention, it would have been obvious to one skilled in the art to modify the device of WO99/54863 by the formation of the structure in any of known shapes because it well known that inflatable structures may assume any desired configuration, such as taught by Walter.

Allowable Subject Matter

4. Claims 21-23, 25-27 39-40 are allowed.

Response to Arguments

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Dowling whose telephone number is 571-272-2116. The examiner can normally be reached on MON-THURS.
